AMERICAN HORTICULTURAL SOCIETY
CALIFORNIA HORTICULTURAL SOCIETY
ROYAL HORTICULTURAL SOCIETY (OF ENGLAND)

NEW ITEMS

During the last 10 or 11 years we have doubtless imported the greatest assortment of new and rare woody plants brought into the country during that period.

Also we have been working pretty hard at plant breeding with fairly encouraging results.

As rapidly as possible we are dropping all common lines and concentrating on **novelties and specialties**.

Hence this list is well worth very careful study if you take interest in trees and shrubs which are out of the ordinary.

EXPLANATION OF HARDINESS RATINGS

As this list goes all over the U.S.A. (and abroad in peaceful times), we believe it will be a good idea to indicate hardiness. This has been done by giving after the name of each item a number in () indicating the zone up to which it is considered hardy.

Our authority through Zone 7 is the second edition of Rehder's Handbook. For Zones 8 to 10 we have been guided by Pacific Coast experience and have sub-divided Zone 9 so that

(9) indicates probably safe to 20° (Sacramento and San Joaquin Valleys, etc.)

(9½) indicates probably safe to 25° or 26° (San Francisco Bay Region, etc.)

(10) indicates will stand only very light frost.

To find the zone you are in refer to map on center pages of this book which we use by the courtesy of Arnold Arboretum and McGraw-Hill Book Co.

Please understand that all ratings show our honest opinion but we disclaim all responsibility for their correctness.

We hope this innovation will be helpful to nurserymen all over the country.

ABBREVIATIONS—

It is important for buyers to know whether they are getting seedlings or cuttings, etc., so we have shown how every item was propagated using the following abbreviations:

B—budded

G—grafted

C—cuttings

S—seedlings

A. M. R. H. S.—Given an Award of Merit by Royal Horticultural Society of England.

A. M. C. H. S.—Given an Award of Merit by California Horticultural Society.

LINING OUT STOCK—

For your convenience we have assembled this material on pages 46-48. We include many new things so that list is well worth studying carefully.

POT GROWN STOCK—

We find that many customers, especially at a distance, prefer to have us remove soil and ship "bare roots". If you want this done **please be sure to say so**. We will then pack roots carefully in damp moss.

Please note carefully further information including terms of sale and special notice to eastern nurserymen on inside of back cover.

INDEX—See Page 46.

Conifers

Unless otherwise stated all plants in this section will be balled at prices quoted.

NOTE: A large portion of our conifers are grafted on seedling roots which gives them a far better root system than when grown from cuttings.

For "growing on" sizes see end of price list.

ABIES arizonica glauca	10	100
BLUE CORK FIR (7)	rate	rate
1½ to 2 ft. G.....	1.50	
nordmanniana, NORDMANN FIR (4)

Broad Leaved Evergreens

Prices quoted are for balled plants except where noted.
For "growing on" sizes see end of price list.

ABELIA floribunda, RED ABELIA (8)		
4 in. pot 6 to 8 in. C.....	.25	.20
hyb. Edw. Goucher (new) (6)		
A beautiful evergreen hybrid (<i>grandiflora</i> x <i>schumanni</i>) combining the hardiness of the former with the rich pink flowers of the latter. Fine compact habit and very floriferous over a long season. A great boon where <i>A. schumanni</i> is too tender.		
1 to 1½ ft. C.....	.75	
schumanni, PINK ABELIA (7)		
4 in. pot 1 to 1½ ft. C.....	.25	.20
4 in. pot 8 to 12 in. C.....	.20	.18
triflora, FRAGRANT ABELIA (7)		
4 in. pot 8 to 12 in. C.....	.20	.18
ACACIA baileyana (9)		
gal. can 4 to 5 ft. S.....	.40	.35
gal. can 3 to 4 ft. S.....	.35	.30
ALYOGYNE hakeaefolia (new) (9)		
gal. can 2 to 3 ft. S.....	.45	.40
4 in. pot 1½ to 2 ft. S.....	.35	.30
ARBUTUS menziesi, MADRONE (7)		
5 in. pot 1½ to 2 ft. S.....	.65	.60
5 in. pot 1 to 1½ ft. S.....	.55	.50
5 in. pot 8 to 12 in. S.....	.45	.40
unedo, STRAWBERRY-TREE (7)		
6 to 8 ft. S.....	2.25	
4 to 6 ft. S.....	2.00	
3 to 4 ft. S.....	1.65	
4 in. pot 1 to 1½ ft. S.....	.25	.20
4 in. pot 8 to 12 in. S.....	.20	.18

BROAD LEAVED EVERGREENS

ARCTOSTAPHYLOS uva-ursi,	10	100
CREeping MANZANITA (2)	rate	rate
4 in. pot 8 to 12 in. S.....	.30	.25
ARDISIA japonica (5-6)		
Not the plant described in "Bailey" under this name but agrees with Rehder's Manual. The red berries are as large as those of Van Tol Holly and produced when plant is only a few inches tall. With us it behaves much more satisfactorily than the better known <i>A. crenulata</i> .		
gal. can 6 to 8 in. S.....	.60	.50
4 in. pot 4 to 6 in. S.....	.35	.30
ASTER fruticosus (9)		
Seedlings vary decidedly in quality. Our stock is all grown from cuttings taken from the finest flowering plant we could find so are entirely uniform.		
4 in. pot 1 to 1½ ft. C.....	.25	.20
AUCUBA japonica variegata		
GOLD DUST AUCUBA (female) (7)		
2 to 3 ft. C.....	1.50	1.25
1½ to 2 ft. C.....	1.10	1.00
1 to 1½ ft. C.....	.80	.75
japonica (mixed male and female) (7)		
4 in. pot 3 to 4 ft. S.....	.30	.25
AZARA integrifolia (new) (9)		
Small tree to 20 ft. Bears conspicuous bright yellow flowers all winter. A.M. R.H.S.		
4 in. pot 1½ to 2 t. C.....	.40	.35
BAROSMA scoparia (new) (9)		
Heathlike shrub from S. Africa. Grows to about 4 ft. and bears pale mauve flowers.		
gal. can 1 to 1½ ft. S.....	.60	.50
4 in. pot 8 to 12 in. S.....	.35	.30
BERBERIS corallina compacta		
CORAL BARBERRY (5)		
A very beautiful new Barberry of dwarf compact growth, with small neat glossy leaves. It smothers itself with a profusion of yellow flowers. Excellent for rock gardens.		
4 in. pot 4 to 6 in. C & G.....	.30	.25
gracilis (new) (5)		
Similar to <i>B. corallina compacta</i> but of stronger growth though only a small shrub. The slender branches are long and arching. Equally profuse bloomer.		
1½ to 2 ft. C & G.....	1.00	.85
4 in. pot 8 to 12 in. C & G.....	.40	.35
Wisley Hybrids (new) (5)		
A strain developed in the Wisley Garden of Royal Horticultural Society. Highly esteemed in England.		
3 in. pot 1½ to 2 ft. S.....	.35	.30
3 in. pot 1 to 1½ ft. S.....	.30	.25

BROAD LEAVED EVERGREENS

	10	100
	rate	rate
BORONIA megastigma (9½)		
This heath-like Australian shrub is one of the world's most fragrant. Flowers are chocolate outside, greenish yellow within.		
4 in. pot 6 to 8 in. S.....	.40	.35
prudieana (new) (9½)		
Another fragrant Boronia with golden yellow flowers.		
4 in. pot 6 to 8 in. S.....	.35	.30
BOWKERIA gerrardiana,		
CALCEOLARIA TREE (9)		
gal. can 4 to 5 ft. C.....	.40	.35
4 in. pot 1½ to 2 ft. C.....	.30	.25
BRUNFELSIA calycina (B. floribunda) (9)		
Splendidly adapted to California conditions. Perfectly evergreen South but almost deciduous North. Flowers open violet and gradually change to white. Free blooming and richly fragrant.		
2 to 2½ ft. S.....	1.25	1.00
5 in. pot & gal. can 1½ to 2 ft. S....	.55	.50
gal. can 1 to 1½ ft. S.....	.45	.40
4 in. pot 1 to 1½ ft. S.....	.35	.30
4 in. pot 8 to 12 in. S.....	.30	.25
calycina grandiflora (9)		
Differs from type only in having larger flowers, more vigorous growth and more open habit.		
gal. can 1½ to 2 ft. G.....	.70	.60
4 in. pot 1 to 1½ ft. G.....	.40	.35
BUDDLEIA colvilei (8)		
4 in. pot 8 to 12 in. C.....	.35	.30
CALODENDRON capense		
CAPE CHESTNUT (9½)		
4 in. pot 1½ to 2 ft. S.....	.35	
CALOTHAMNUS longissimus (new) (9)		
A most unusual shrub of excellent round compact habit. The slender branchlets are red while the foot-long needle-like leaves are deep green. The fringed flowers are red but not showy.		
4 in. pot 1 to 1½ C.....	.35	.30
CAMELLIA Clarke Red (7)		
5 in. pot 6 to 8 in. C.....	.40	.35
CEANOTHUS cyaneus		
LAKESIDE WILD LILAC (9)		
gal. can 2 to 3 ft. S.....	.35	.30
gloriosus (new) (8-9)		
A splendid prostrate form. Has much larger leaves and faster growth than C. prostratus and bears large deep blue flowers.		
4 in. pot 8 to 12 in. C.....	.35	.30

BROAD LEAVED EVERGREENS

CEANOTHUS (continued)

	10 rate	100 rate
impressus (new) (9)		
Rounded compact shrub with small crinkly leaves. Covers itself in spring with a mass of rich blue flowers. Very fine indeed.		
gal. can 3 to 4 ft. S.....	.60	.50
gal. can 2 to 3 ft. S.....	.40	.35
4 in. pot 8 to 12 in. S.....	.30	.25

megacarpus (8)

Bears the largest flowers (not clusters) of all the "Wild Lilacs". Light colored but not really white.

4 in. pot 1½ to 2 ft. S.....	.35	.30
------------------------------	-----	-----

papillosus roweanus (new) (9)

This recently discovered variety is of low spreading growth with long narrow glossy leaves. Has intensely vivid, very deep blue flowers. Splendid.

4 in. pot 1 to 1½ ft. S.....	.40	.35
------------------------------	-----	-----

HYBRIDS

hyb. Autumnal Blue (new) (8)

Strong growing variety imported from England where it received A. M. R. H. S. Deep blue flowers in late summer and fall as well as spring.

gal. can 2 to 3 ft. C.....	.60	.50
4 in. pot 1 to 1½ C.....	.35	.30

hyb. burkwoodi (new) (8)

A very fine hybrid imported from England where it has received both the Cory Cup and A. M. R. H. S. Makes a compact rounded shrub of excellent habit and bears a great mass of flowers, soft blue in bud but opening much deeper. We rate it as very good.

gal. can 3 to 4 ft. C.....	.75	
4 in. pot 1 to 1½ ft. C.....	.35	.30

hyb. Delight (new) (8)

Another English hybrid. Dark glossy foliage and masses of deep blue flowers. A. M. R. H. S.

4 in. pot 8 to 12 in. C.....	.35	.30
------------------------------	-----	-----

hyb. veitchianus (7-8)

Originated in England. Has a good compact habit and deep blue flowers.

4 in. pot 1 to 1½ ft. C.....	.45	
4 in. pot 8 to 12 in. C.....	.35	.30

CHLORANTHUS brachystachys

(C. glaber) (new) (9½)

Low shrub of quick growth to about 2 ft. Said to bear red or yellow berries and to be suitable as a pot plant for Xmas.

1 to 1½ ft. S.....	.75	
4 in. pot 1 to 1½ ft. S.....	.40	.35

CHOISYA ternata

MEXICAN-ORANGE (6-7)

3 to 4 ft. C.....	1.50	
2½ to 3 ft. C.....	1.25	1.00
gal. can 1½ to 2 ft. C.....	.40	.35
gal. can 1 to 1½ ft. C.....	.35	.30
4 in. pot 1 to 1½ ft. C.....	.30	.25
4 in. pot 6 to 8 in. C.....	.20	.18

BROAD LEAVED EVERGREENS

	10	100
	rate	rate
CISTUS corbariensis (7)		
Certainly a beauty. Growth low; foliage attractive; flowers small, pure white and charmingly formed.		
3 to 4 ft. C.....	.80	.75
crispus roseus (new) (7)		
4 in. pot 1½ to 2 ft. C.....	.35	.30
purpureus, ORCHID ROCKROSE (6-7)		
4 in. pot 1½ to 2 ft. C.....	.30	.25
CITRUS meyeri, DWARF LEMON (8-9)		
gal. can 1 to 1½ ft. C.....	.55	.50
4 in. pot 6 to 8 in. C.....	.30	.25
CLETHRA arborea		
LILY OF THE VALLEY TREE (9½)		
gal. can 2 to 3 ft. C.....	.75	.65
4 in. pot 8 to 12 in. C.....	.35	.30
COLEONEMA pulchrum		
PINK DIOSMA (9)		
1½ to 2 ft. C.....	1.10	1.00
4 in. pot 8 to 12 in. C.....	.30	.25
CORDYLINE—DRACAENA (8-9)		
10 to 12 ft. S.....	4.00	
8 to 10 ft. S.....	3.00	
6 to 8 ft. S.....	2.25	
COROKIA cotoneaster (8-9)		
4 in. pot 1 to 1½ ft. C.....	.30	.25
CORREA magnifica (new) (9)		
The yellowish green flowers are probably the largest in the genus. A healthy vigorous, rather upright grower which like most other Correas starts blooming when very small and has a long flowering season during winter months.		
4 in. pot 1 to 1½ ft. C.....	.65	.60
4 in. pot 4 to 6 in. C.....	.45	.40
pulchella		
PINK AUSTRALIAN FUCHSIA (8-9)		
Bears soft pink, hanging, bell-shaped flowers continuously from October until Spring. Stands 20 degrees.		
4 in. pot 1½ to 2 ft. C.....	.40	.30
4 in. pot 1 to 1½ ft. C.....	.30	.25
COTONEASTER		
Some are deciduous, some semi-evergreen and others fully evergreen. As these characters vary with climatic conditions we list all species here in accordance with general custom.		
apiculata		
CRANBERRY COTONEASTER (4)		
4 in. pot 12 to 15 in. G.....	.40	.35
4 in. pot 8 to 12 in. G.....	.35	.30

BROAD LEAVED EVERGREENS

Flowering Fruit Trees

All plants in this section will be dug "bare roots" unless otherwise stated. Our Almonds, Apricots, Cherries, Peaches and Plums are grown outside the Peach Root Borer district so can be shipped anywhere.

In addition to material offered in this list we have a fine stock of larger and older Flowering Cherries, Peaches and Plums suitable for use within a radius of 50 miles or so. Neighboring nurserymen are invited to call and see the trees.

Peggy Clarke—double rose

A new variety of *Prunus mume*. Originated here and first offered last season. Flowers of medium size, slightly cupped and rose pink, a unique color in this group. Fragrant of course.

Rosemary Clarke—double white

The best double white *Mume*. Calyces red. Very fragrant. Originated here.

FLOWERING CHERRIES (5)

We have the most complete nursery collection in U. S. A. We list only those in fairly good supply but have a number of others in limited quantities: so "if you don't see what you want, ask for it".

Also we have quite a stock of older well developed plants. Particulars on request.

Every variety is entirely distinct but only brief mention of color is given. We expect to describe them more fully in "Garden Aristocrats 1942" which will be issued in January. For complete information with many illustrations the best source is U. S. Dept. of Agriculture Circular No. 313 "The Oriental Flowering Cherries" by Paul Russell which may be had by sending 10c coin to Supt. of Documents, Washington, D. C. or from us for 12c in stamps.

3 to 4 ft.....	.40

Thundercloud

Beyond all question has the very best foliage of the purple leafed plums. Furthermore it holds its bronzy purple color the entire season, not merely in spring.

OTHERS

6 to 8 ft.....	.60
5 to 6 ft.....	.50
4 to 5 ft.....	.40
3 to 4 ft.....	.30

- Prunus pissardi, purple leaves

HARDINESS MAP

HOW TO USE THIS MAP

From it determine what zone you are in. Every item carrying your zone number **or a smaller number** should be hardy with you. If you want to gamble on those rated **one zone greater**, there is at least a chance for success, but two zones greater will probably be hopeless.

For full explanation of the entire system see inside of front cover.

Deciduous Trees

All plants in this section will be dug bare roots unless otherwise specified. Items offered in containers can be shipped "bare roots" if so desired; please specify preference.

FRAXINUS griffithi (new)
GRIFFITH ASH (7)

Remarkably beautiful. Has numerous small leaflets of uniform size which are leathery, deep green and very glossy. It looks like an evergreen and holds its foliage until very late in the fall but is entirely deciduous. In addition to all of this it belongs to the "Flowering Ash" group so has large clusters of white fragrant flowers. Altogether quite a tree!

GEN. MARCEAU—CDE. Single; ruddy purple; very large flowers.

HENRI ROBERT—CDE. "Double, huge thyrses, large full flowers, slaty purplish blue with paler undersides."

MME. AUG. GOUCHAULT—CDE. "Double, pure white in long elegant clusters; flowers well spaced, blooms late." We were told in France that the flowers were not packed too tightly in the clusters which is a serious fault of so many doubles.

PRES. LEBRUN—CD. "Single, rosy mauve, blooms late." We saw this in bloom in France, spring '38 and considered it very good.

RECENT EUROPEAN NOVELTIES

(and two particularly promising seedlings)

	each		
B 3 to 4 ft. B.....	1.50	1.25	1.10
C 2 to 3 ft. B.....	1.25	1.00	.90
D 1½ to 2 ft. B.....	1.00	.75	.65
E 1 to 1½ ft. B.....	.75	.60	.50

Letters after varieties show sizes available.

AMI SCHOTT—DE. "Double; dense panicles of broad cucullate flowers, deep cobalt blue with paler reverses; a superb novelty." Fine sturdy grower. Flowers not jammed up in the clusters; late. Looks very promising.

FIRMAMENT—CDE. "Single; immense panicles of large regular flowers of a beautiful shade of sky blue, truly a gem among blue varieties." He didn't claim half enough. Charming sky blue color. Blooms very young. If this doesn't become popular we are poor prophets.

HUGO DE VRIES—BD. Single; dark purple. Flowers large in long clusters. Said to be a great improvement on Ludwig Spaeth. Others call it bright mauve rose with flowers up to 1½ inches wide.

MARECHAL FOCH—C. "Single. Panicles truly immense. The perfectly shaped individual flowers are bright carmine rose with pink eye. Early." All authorities praise it highly and some claim it is the best single Lilac to date. Vigorous erect grower. Individual flowers large. Early.

LILACS

RECENT EUROPEAN NOVELTIES (continued)

MASSENA—DE. "Single; strong upright spikes; flowers single over one inch broad and of the deepest purple red." Size of flower is not exaggerated; they are huge and are borne in fine spikes.

MONUMENT—CDE. "Single; very big and compact trusses of creamy white flowers. A very showy novelty of an unusual floriferousness." Early, snow white, precocious, productive and carries flowers well above foliage. A real Lilac!

PRODIGE—DE. "Single; this novelty carries good trusses of immense flowers, measuring fully one-and-one-half inches in breadth, of deep purplish red." The flowers (not clusters) are the largest we have seen. Very fragrant which is not so usual in dark varieties.

C-127—CDE. Single pinkish-orchid; greatly admired at our 1941 show.

C-138—BCD. Single; mauve-pink. Foot long clusters even on 1 yr. buds. Vigorous; produces freely over a long season.

SPECIAL LIST

Lilac Show

Our annual April show gives a chance to observe the latest European varieties and also to see what progress we are making here in our 10 years' work breeding new kinds.

Nurserymen in S. F. Bay region will be notified of date by post card which will be sent on request to any address.

Come if you can!

Magnolias

GRAFTED

Unless otherwise stated prices are for **balled plants with flower buds**; without buds 20% less. Additional deduction of 15 cents per plant if wanted "bare roots".

EXTREMELY RARE KINDS

veitchi (new) (7); no buds

Magnificent hybrid of *M. denudata* x *campbelli*. Very vigorous, quickly making a large plant which bears a profusion of soft rosy pink flowers of great size. Stock limited.

			10	100
			rate	rate
	3	to 4	ft.....	6.00
	2	to 3	ft. light.....	4.50

wilsoni (new) (5); no buds

Blooms in early summer on new growth so does not set winter buds. Flowers are fragrant, saucer shaped, of medium size, white with showy deep crimson anthers.

	2	to 2½	ft.....	3.50
	1½	to 2	ft.....	3.00

GENERAL COLLECTION

A	6	to 7	ft.....	6.00
B	5	to 6	ft.....	5.00
C	4	to 5	ft.....	4.00
D	3	to 4	ft.....	3.00

Letters after varieties show sizes available.

soul. amabilis (5), large, nearly white flowers ABC

soul. San Jose (5), earliest, very large, 9 petals 5 inches long, lower half purple on outside ABCD also 7 to 8 ft. at \$7.50 each

stellata, STAR MAGNOLIA (5) ABCD also 7 to 8 ft. at \$7.50 each

Our larger plants of *M. stellata* are beauties in every way, wide for their height, freely branched and loaded with flower buds. (None available "without buds" except in two smallest sizes.)

We are grafting a far greater assortment than shown above, but most of the budded plants have already been sold for the season.

SEEDLINGS

Prices are for "bare roots" unless in containers.

hypoleuca, SILVER MAGNOLIA (5)

Fragrant white flowers to 7 inches diameter. Enormous leaves. Makes a large tree.

	gal. can 1	to 1½	ft.....	.50	.45
--	------------	-------	---------	------------	------------

kobus (5)

	6	to 8	ft. no buds.....	3.50
	5	to 6	ft. no buds.....	3.00

macrophylla (5)

This rare American tree bears huge white fragrant flowers up to a foot across. Summer bloomer.

	gal. can 1	to 1½	ft.....	.55	.50
--	------------	-------	---------	------------	------------

salicifolia, ANISE MAGNOLIA (5)

Flowers white; foliage scented.

	10	to 12	ft. bare roots.....	4.00
	8	to 10	ft. bare roots.....	3.50

Flowering Quinces

(CHAENOMELES, formerly Cydonia)

(All are grafted unless otherwise marked).

C. californica (new) (5-6)

(Cathayensis Hybrids)

This is a new and distinct hybrid species obtained in our nursery by crossing C. superba corallina with C. cathayensis. The plants are vigorous growers, make short laterals freely and are heavy bloomers. Some are extremely early commencing to bloom in December and January here. All have a second crop and some a third. A. M. C. H. S., 1939.

Below we offer six named varieties and a few particularly good ones which are still under number.

	each	10 rate	100 rate
A 4 to 5 ft.....	2.00	1.75	1.50
B 3 to 4 ft.....	1.75	1.50	1.25
C 2 to 3 ft.....	1.25	1.00	.85

Letters after varieties show sizes available.

Enchantress—BC. Shell-pink, a unique color in Quinces. Flowers are frequently $1\frac{3}{4}$ inches wide; greatly admired by visitors. Very free blooming. One of the best.

Masterpiece—BC. Rosy scarlet, bright and cheerful, exceedingly free blooming and one of the earliest to flower.

Mount Everest—B. Buds lightly flushed lavender-rose. Open flowers pure white with faint lavender tips turning to blush-pink when aging.

Rosemary—B. Deep rose; gorgeous color; extra heavy bloomer. One of the very best.

Sunset Glow—BC. Red to dark rose, quite brilliant, blooms heavily and is early. This early crop is followed by a second lot of blooms.

LATEST INTRODUCTION

Pink Beauty—B. Clear pink shaded rose. A decidedly free bloomer and although among the very earliest of this group, it bears three successive crops giving flowers for a period of three months. Price 50c per plant higher than above schedule.

IMPORTANT. No orders for this variety will be accepted for shipment east of the Rockies. Customers there will please inquire of Wayside Gardens, Mentor, Ohio.

FLOWERING QUINCES

CATHAYENSIS HYBRIDS (continued)	10	100
	rate	rate
#315—B. Deep rose, buds bicolored.

D 1½ to 2 ft.....	.75	.60
E 1 to 1½ ft.....	.60	.50

Letters after varieties show sizes available.

Crimson and Gold CDE. Originated with us and introduced three years ago. The beauty of its vividly brilliant crimson flowers is enhanced by the rich golden hue of the stamens. Very early, blooming here all winter (4 to 5 months continuously). Excellent for cutting in bud as it does not fade badly when brought into bloom indoors. We believe it has definite commercial value in this respect.

FLOWERING QUINCES

C. *superba* group, NEW VARIETIES (continued)

10
rate 100
rate

Early Appleblossom BE. Flowers are not large but come in great profusion and show a pleasing blend of light and dark pink.

Juliet and **Stanford Red**, two varieties originated by us, were introduced last year but made such an instantaneous hit that all stock for coming season has been sold in advance.

Unnamed

- #309—D. An improved corallina.
- #319-A—BC. Coral shaded greenish-yellow.
- #333-A—BC. Coral with lighter center.
- #334—BCD. Orange coral, extremely profuse and earliest we have ever seen. Also blooms well in fall.
- #337—CD. Orange scarlet, huge flowers, blooms most profusely.
- #339—C. Vivid orange-red with golden stamens. Gorgeous color but small flowers.
- #345—C. Between terra cotta and apricot.
- #347—CE. Chinese coral with lighter center. Enormous cupped flowers with long stamens.
- #348—D. Clear shrimp pink, lovely color.
- #350—DE. Salmon, enormous, free flowering.
- #351—CD. Vivid red; very profuse.
- #352—D. Pure scarlet; most profuse.
- #353—DE. White with frilled petals.

STANDARD WISTERIA GRADING

	dia. of stem at one ft.	width of head
X Heavy Specimen	over 1½ in.....	over 6 ft.
Y Specimen	1¼ to 1½ in.....	about 6 ft.
Z Extra Heavy	7/8 to 1¼ in.....	about 4 to 5 ft.
A Heavy	5/8 to 7/8 in.....	about 3 ft.
B Regular	1/2 to 5/8 in.....	about 2 to 2½ ft.
C Light	3/8 to 1/2 in.....	about 18 in.

Miscellaneous

ANIGOZANTHUS manglesi	10	100
KANGAROO PAW (8?)	rate	rate
An evergreen herbaceous plant related to Amaryllis and having Gladiolus-like foliage. Inflorescence is most astonishing as it throws up a strong bright red stalk about 18 inches tall surmounted by vivid metallic green flowers of most unusual form.		
4 in. pot.....	.40	.35
LUPINUS, Russell Lupins (5)		
5 in. pot named.....	.55	.50
2½ in. pot seedlings.....	.10	.08
WOODWARDIA ROOTS		
\$4.00 per 50; \$7.00 per 100.		

Roses

We grow not only bush, climbing and "standard" (tree) roses for nurserymen, but also florist's forcing stock for greenhouse use. Tree roses are completely sold out for the season. We are pretty well booked up on bush roses and most of our forcing stock is grown on advance contracts, but if we find any surplus of either after orders are filled we will mail lists.

Garden Aristocrats

This is the title of a descriptive booklet that we get out annually in January. It contains considerably more descriptive material than this list and also includes quite a number of very new things of which the present supply is too small to be included in a wholesale list.

In January we will mail a copy of this booklet to every nurseryman in Washington, Oregon, and California whose name is on our mailing list. We shall be glad, upon request, to send a copy to any nurseryman elsewhere.

Lilac Show

Our annual April show gives a chance to observe the latest European varieties and also to see what progress we are making here in our 10 years' work breeding new kinds.

Nurserymen in S. F. Bay region will be notified of date by post card which will be sent on request to any address.

Come if you can!

Stock to Grow On

INCLUDING MANY NEW THINGS

Everything offered below is high grade material which we have grown primarily for our own use but of which we have more than we need for our own planting.

QUANTITY RATES. Not less than 5 of a kind and size will be booked. 25 or more of one kind and size will take 100 rates; less take 10 rates.

PACKING. Free in lieu of cash discount if remittance in full accompanies order; otherwise at cost.

ABBREVIATIONS. G means grafted; C cuttings; S seedlings; 2½p etc., means of course from 2½ inch, etc., pots.

HARDINESS. For hardiness ratings see main part of this list.

Bird's IMPROVED NEPONSET **Flower Pots**

We are agents for Bird & Son's famous Neponset Paper Pots. The green pots, now greatly improved, are used for growing.

Prices on green pots are at factory in Mass. Freight via Panama Canal is slight.

Prices on red pots include freight to any point in U. S. A. if ordered for shipment direct from factory. Otherwise f. o. b. San Jose. All prices are for unbroken case lots.

Size	Quantity per case	Price per 1000	
		Green	Red
2 inch	1000	\$ 6.35	\$ 3.75
2½ inch	1000	6.90	4.40
3 inch	1000	8.20	5.65
4 inch	500	12.00	8.60
5 inch	500	17.00	12.20
6 inch	500	22.10	15.75

Special rates will be quoted on request for unusually large quantities.

Please Note

All summer prices and other quotations not accepted to date are hereby cancelled.

Prices. All prices herein are strictly net, to the trade only and for goods at our nursery unless otherwise stated. This list means what it says both as to prices and terms and we do not deviate from it.

Pots. Prices of pot-grown stock do not include the clay pots and unless otherwise instructed plants will be shipped without them. If wanted in the pots they will be charged for at cost, but may be returned and full credit will be given.

Specimens. Prices herein are for average good plants but selected specimens will be charged for extra at actual value.

Terms. To buyers of known or established credit, 60 days from date of invoice. Otherwise cash with order or 25% with order, balance C. O. D. No "cash discount" except as stated under "Packing" below.

Quantities. Five or more plants of one kind and size will be supplied at 10 rate; 25 or more at 100 rate; for less than 5 of one kind and size add 20% to 10 rate unless it is \$1.50 or more, in which case there will be no surcharge. This arrangement is to avoid cluttering up this list with needless "each rates". Of course in the few cases where we show "each rates" they are net for 1 to 4 plants.

Grading. Plants that are wider than tall are graded by width.

Packing. At cost as usual, including paper pots if used. Plants will be packed to secure lowest possible freight classification consistent with the nature of the goods shipped. **Packing free if cash comes with order.**

Shipping. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight, express or truck line and where water shipment is possible be sure to specify water or rail as you may prefer.

Other Stock. This list covers stock for shipment from our San Jose Nursery. We also act as selling agents for several other growers so shall be glad to have inquiries for any material grown on the Pacific Coast but not listed herein.

Complaints. Must be made within 10 days after buyer receives the goods.

Important Notice for Eastern Nurserymen

Out here everything east of the Rockies is "Eastern"!

During January and February we ship several heated refrigerator cars to Atlantic Coast and mid-western points. For convenience of customers in southeastern states, one of these will probably be unloaded at Atlanta or Birmingham and individual orders reshipped from there. Where size of order justifies, we can nearly always arrange for carload service to destination or some nearby point. The total cost of each car is prorated among all customers who have goods in it.

**MANUAL OF
CULTIVATED TREES AND
SHRUBS**

HARDY IN NORTH AMERICA

by

ALFRED REHDER

Of Arnold Arboretum

THE second edition of this monumental work, published last year, is in a class by itself as a reference book on woody plants. Every item is rated for hardiness. Nearly 1000 pages. We most heartily recommend this and shall be glad to supply it at publisher's price, \$10.50 plus postage.
